

# Tableau Day-2 Scenarios

**By L Vinay Rajiv Reddy**

1) Find the sales for every year and find the highest sales and show it in bar graph.

## 2) Add Labels to your view

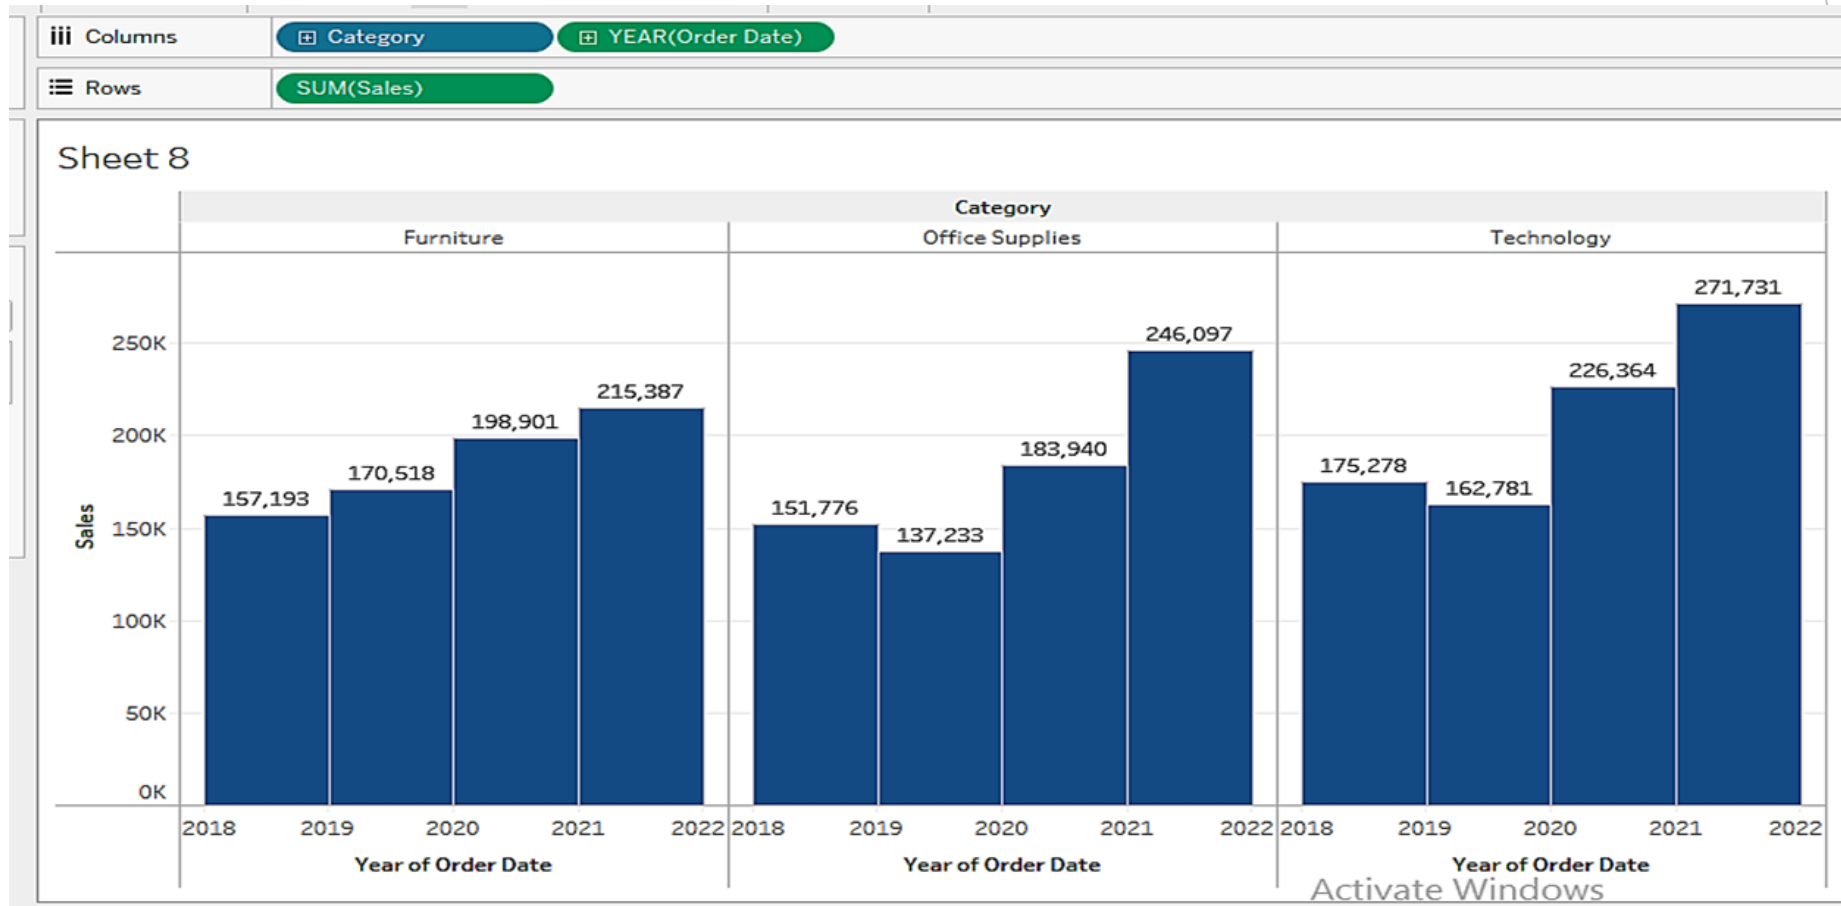

### 3) Find the category wise sales for each year

## 4) Which sub category has the highest sales in 2019 & 2020.

- From the below image, it's clear that technology has got an edge over the other categories.

## 5) Based on the Analysis of the sales in the year 2020 & 2021, give some suggestion to improve the sales in 2022

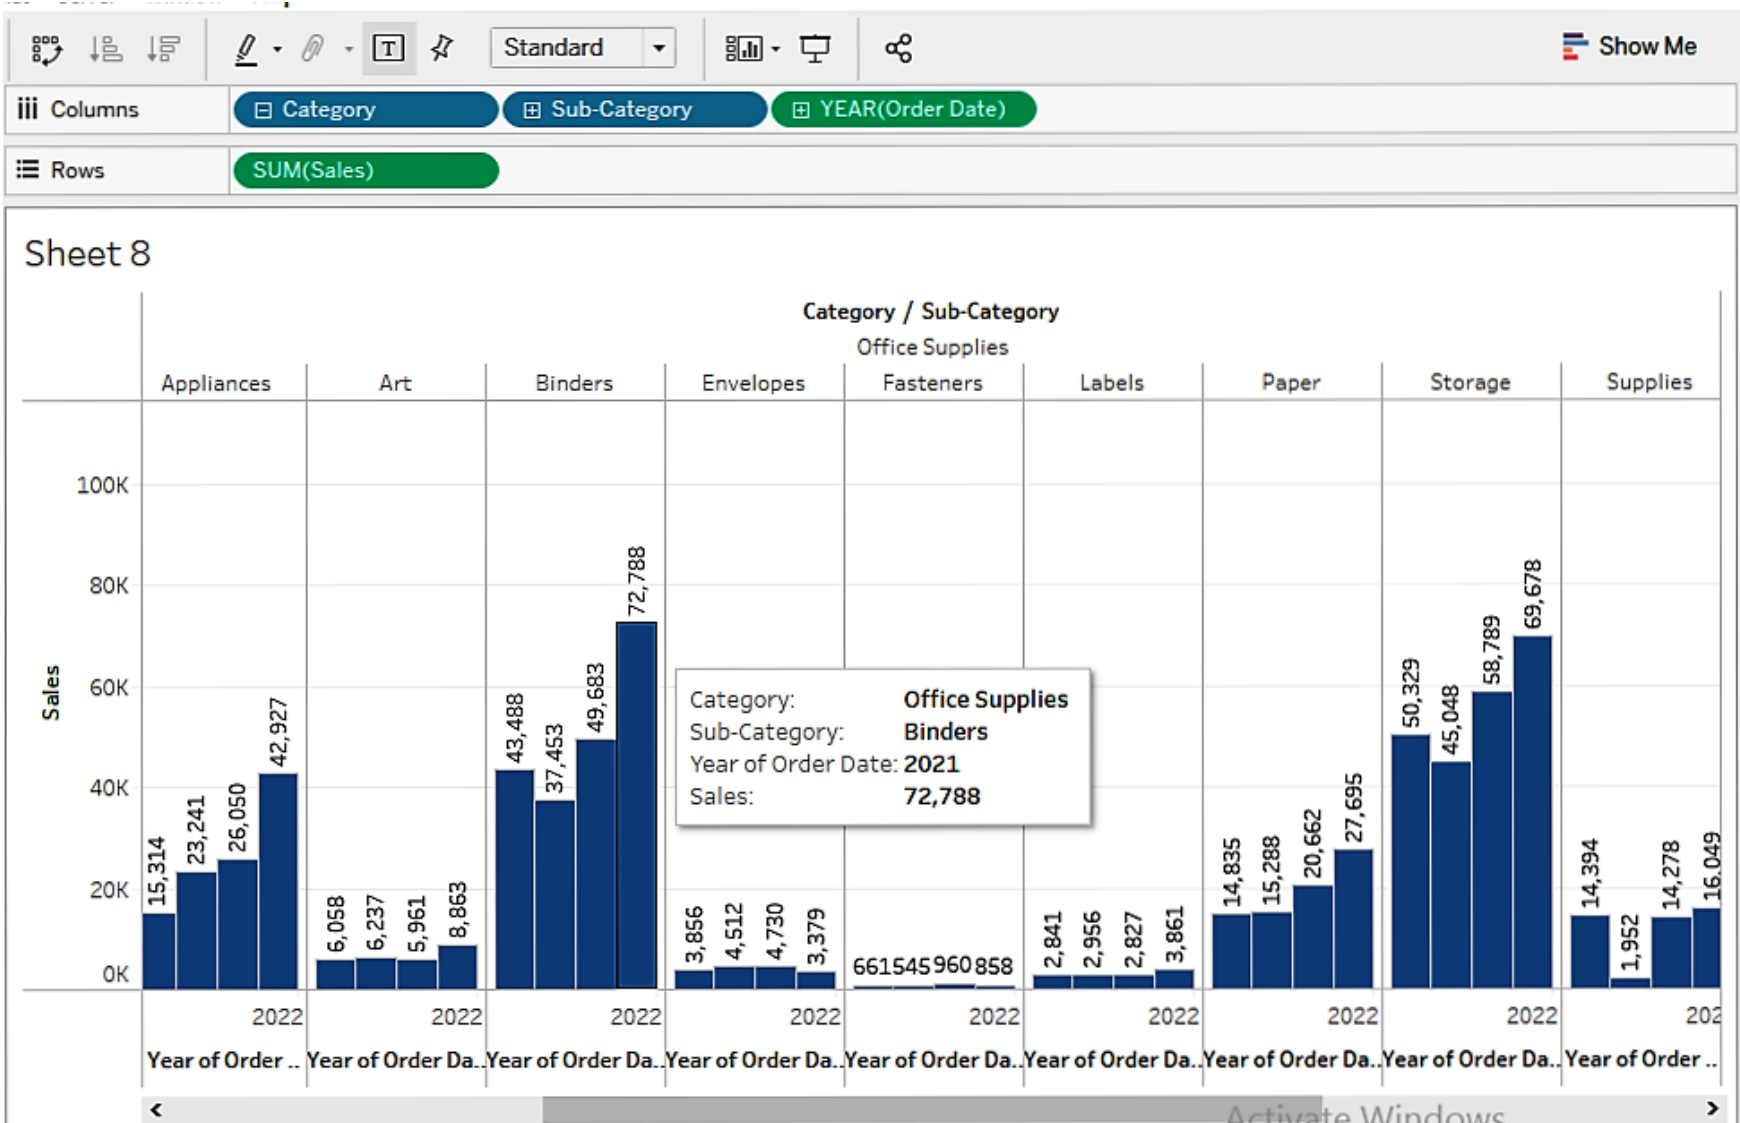

- ▶ As the “Technology” category is leading in sales, better to focus on it first.
- ▶ Also we could improve the promotions in the other 2 categories also to get them improved.

## 6) Display the sub categories and find the maximum sales under each category.

- ▶ 3 Categories :
  - ▶ Furniture
  - ▶ Office Supplies
  - ▶ Technology

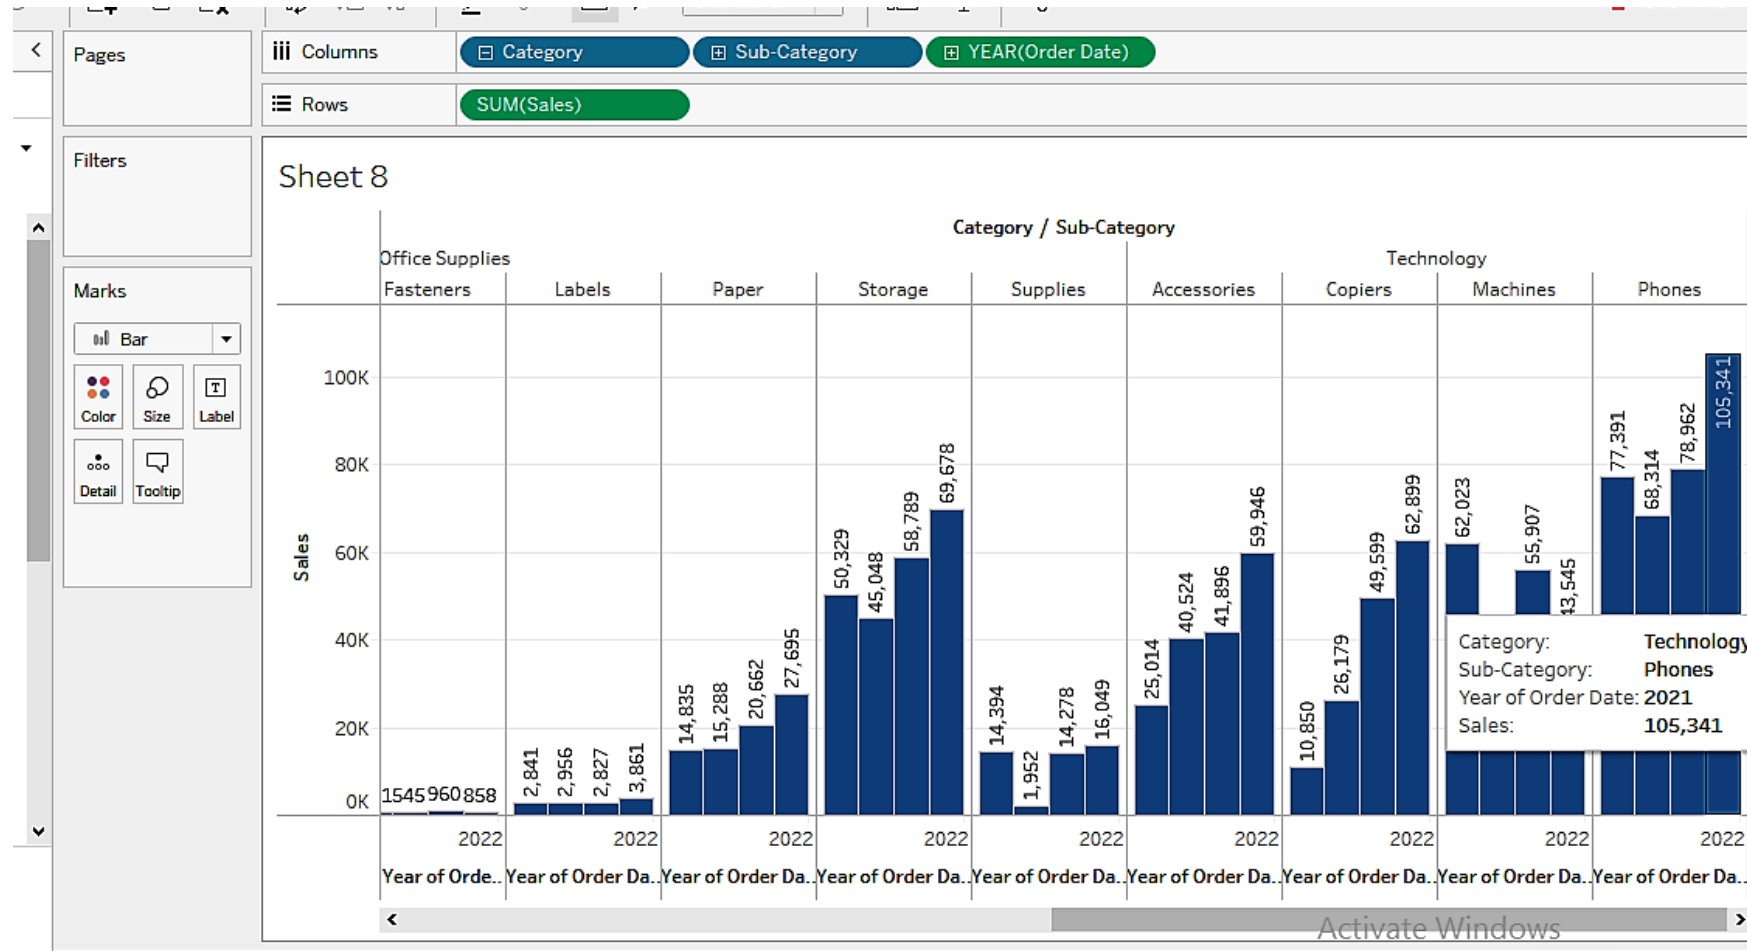

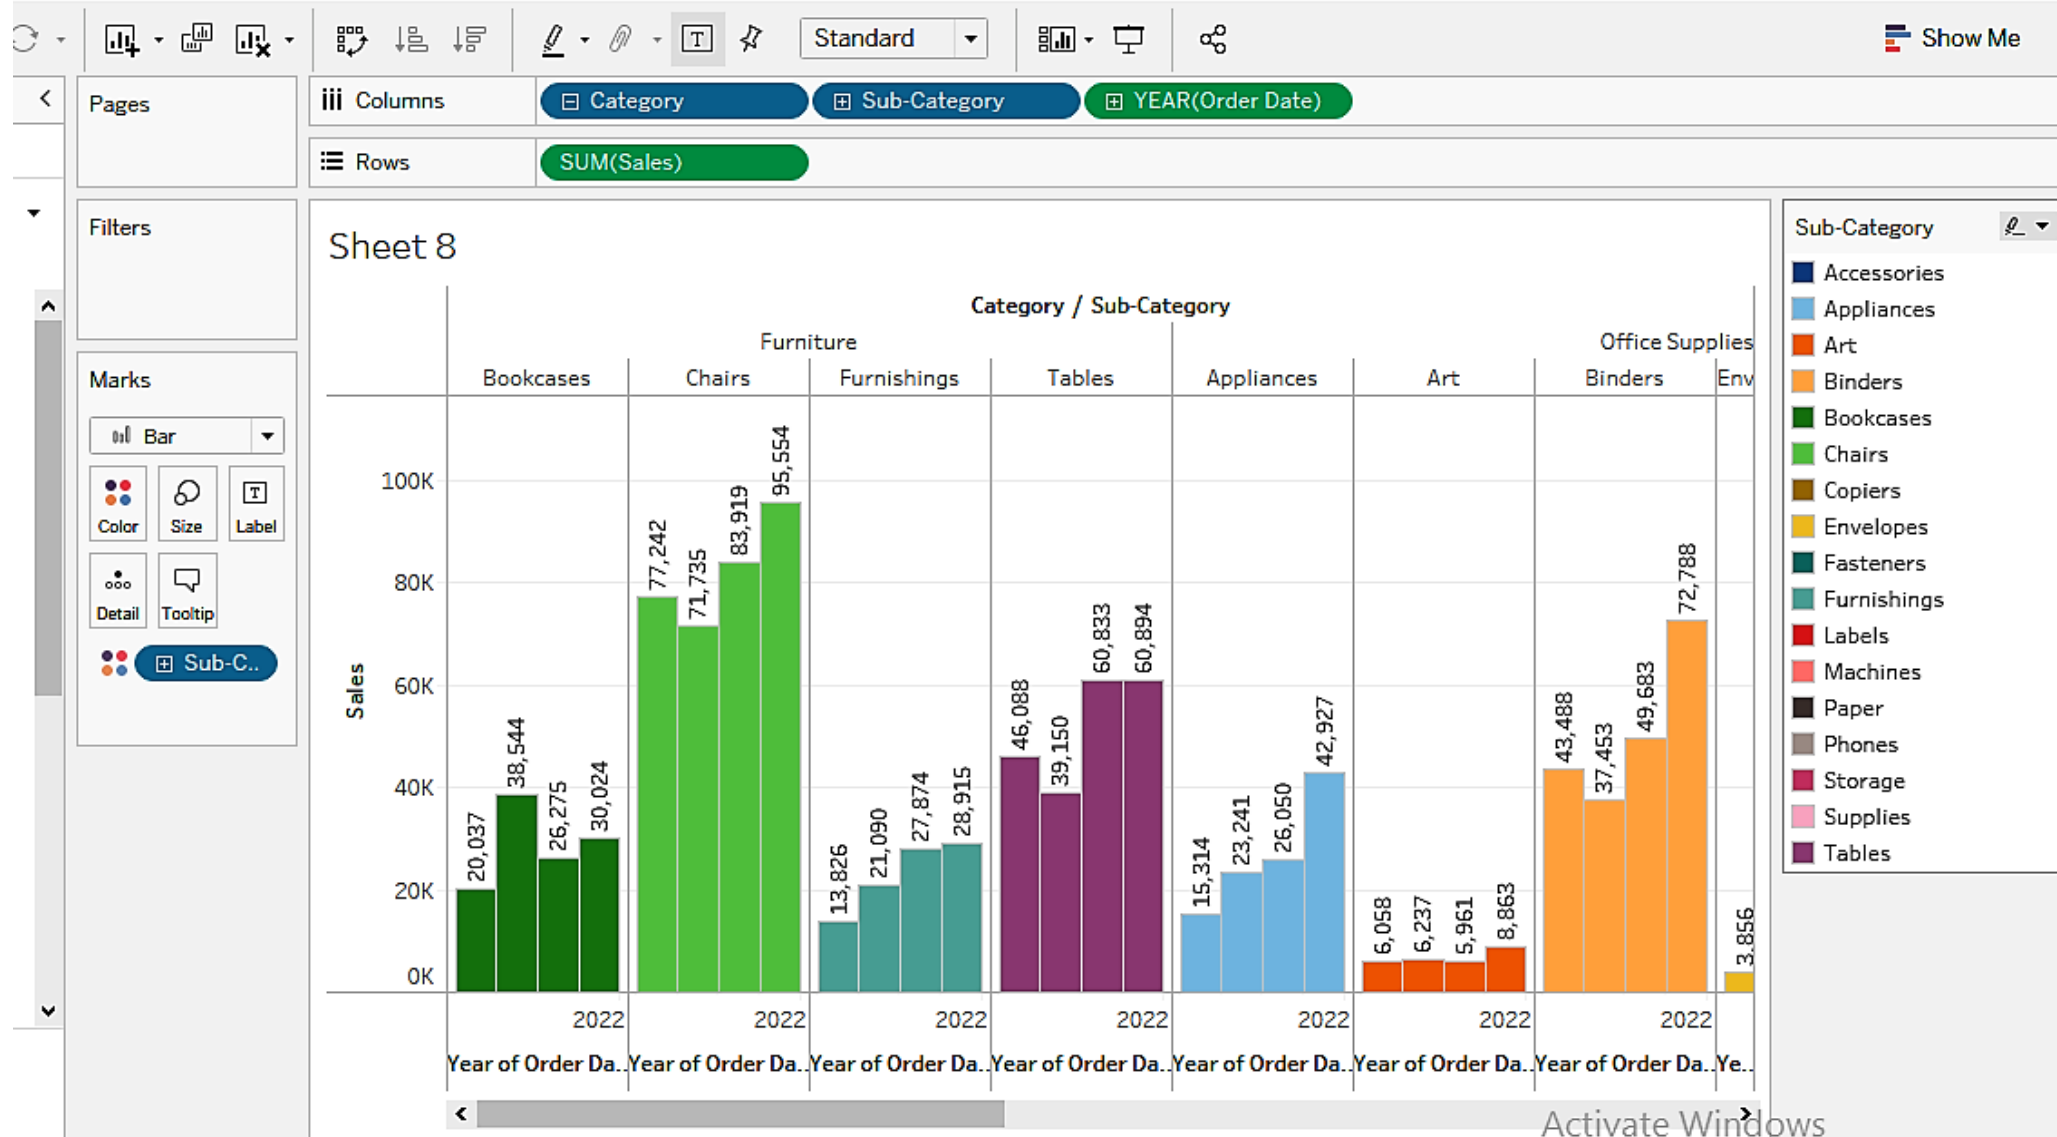

## 7) Check the Tool Tip

## 8) Present all the subcategories using the color card

- ▶ We could visualize it in 2 ways:
  - ▶ Having sub category field in both “Row” shelf and color card.
  - ▶ Having sub category field in only color card.
