# Tableau Visualization (Day-4)

L Vinay Rajiv Reddy
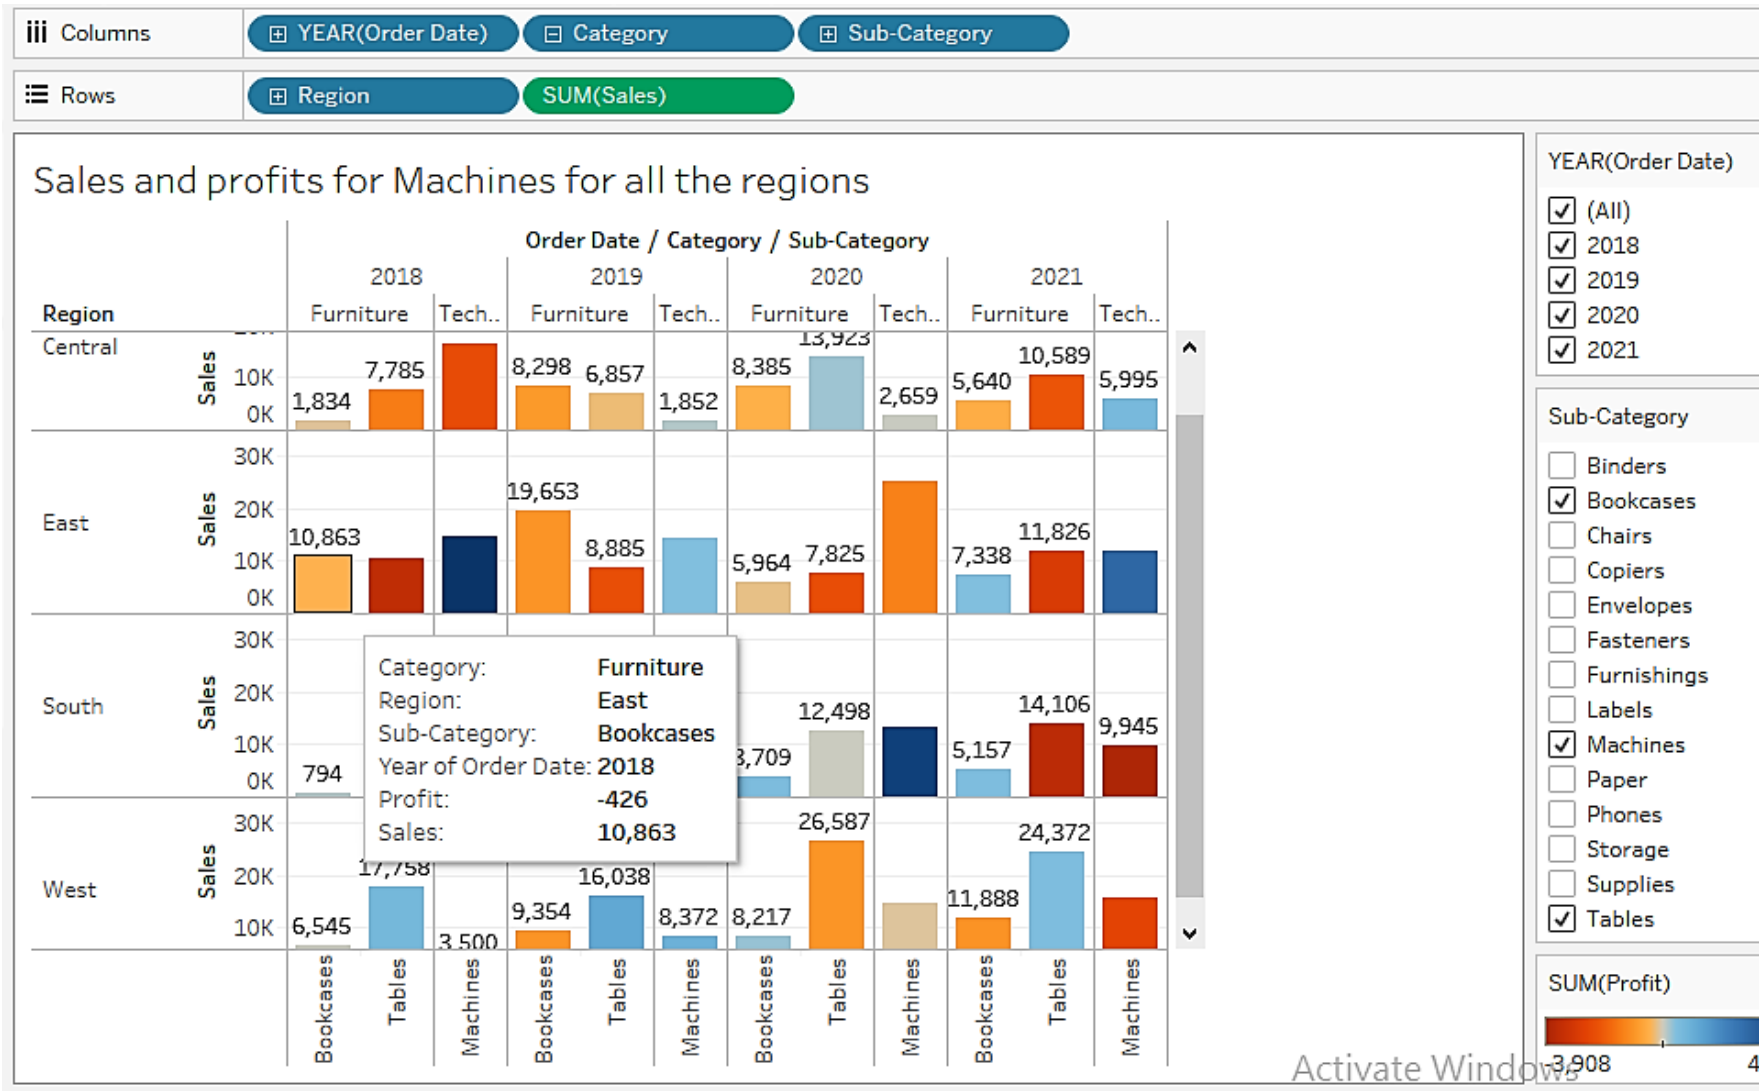

# 1) Find the profit & sales for each sub category

# 2) Which sub category has highest profit in 2019

# 4) In the view only show the Bookcases, Machines & Tables sub categories

5.Find out in which year bookcases & machines were profitable & unprofitable

6.Show the sales region wise for every sub-category and every year

Sales and profits by region for all the sub categories

7)In which region are you reporting higher negative profit overall than in your other regions

8.Show your view for sales in the south for all sub-category
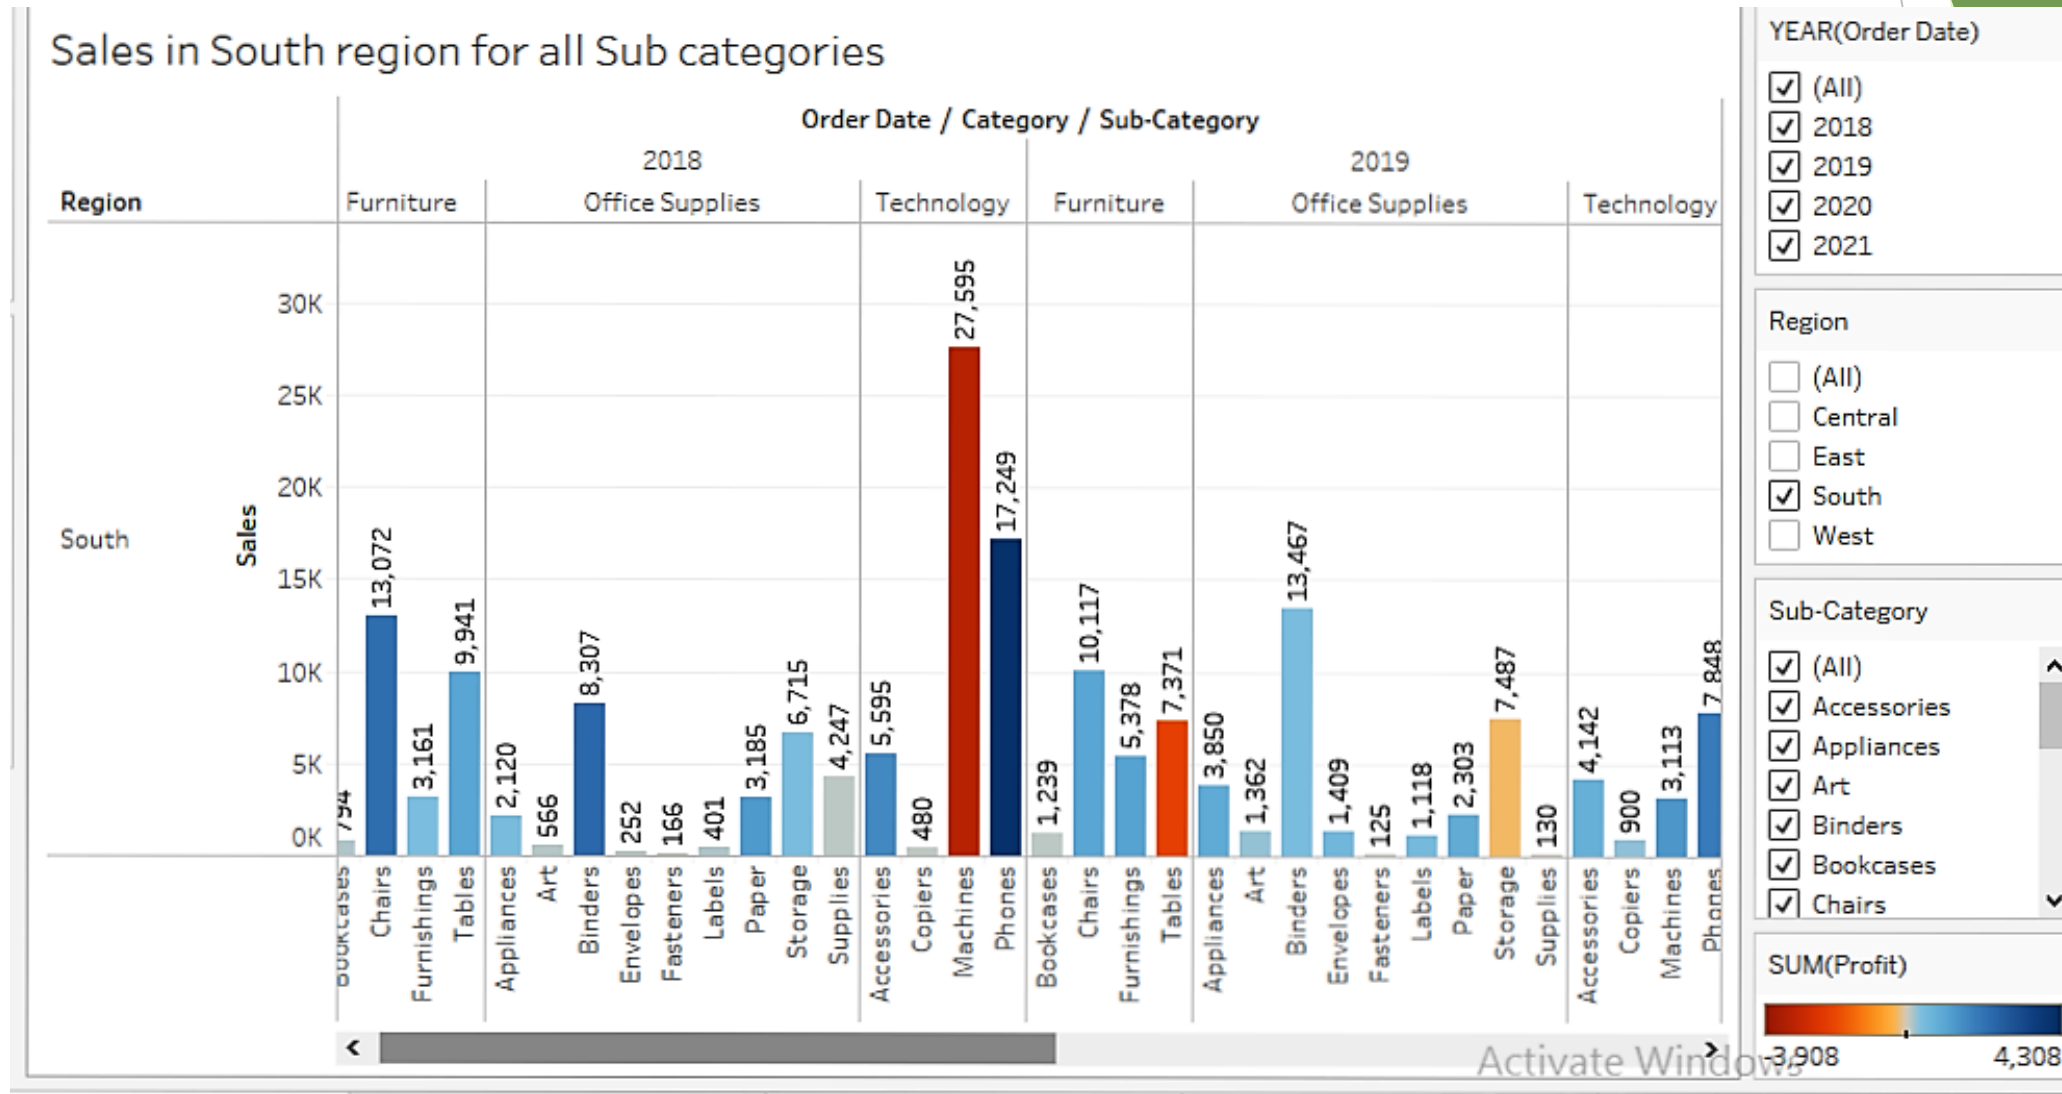

9.Which sub-category has the highest overall negative sales in the south region

10. Take some decisions to improve the sales in the south

▶ Sales & profits trends in south is no different to other region in majority of aspects, but the only few aspect made it to record huge losses are :

   ▶ Drastic loss of **machines** in **Burlington** of North Carolina

   ▶ Considerable loss of **machines** at **Jacksonville** of Florida and Tables at **Concord city** of North Carolina
